Summary

Product Security Engineer with a backend engineering background. Work across AppSec, DevSecOps, security architecture, AI security and MLSecOps/LLMSecOps. Hands-on experience with code and architecture review, SAST/SCA triage, DAST, ASOC tooling, mobile security testing, IAM and AI-agent security.

Experience

Yandex

Sept 2025–Present

Product Security Engineer

- Product security in fintech and AI security.

Severstal

Aug 2024–Sept 2025

Cybersecurity Manager

- Worked on AppSec, DevSecOps and security architecture at corporate group level.
- Conducted code and architecture reviews, triaged SAST/SCA reports and performed manual security testing with DAST-focused tooling.
- Designed security requirements for infrastructure, ML systems, business applications and contractor-built software.
- Built the company's first MLSecOps/LLMSecOps cycle: policies, solution architectures and consultations for ML teams.
- Led security work for IAM and AI-agent initiatives; piloted vendor products and ran internal engineering workshops.
- Served on the Technical Committee and participated in technical interviews for AppSec roles.

Alfa-Bank

Jan 2024–Mar 2024

DevSecOps Engineer

- Developed an in-house ASOC platform: maintained Python/FastAPI/MongoDB codebase, implemented integrations with corporate systems including Jira, fixed bugs and improved stability.

RAMAX Group

Aug 2022–Dec 2023

Software Engineer

- Backend developer on a route optimisation platform: built services for time/distance matrix generation, mathematical solver backends, storage, execution and computation scheduling.
- Maintained and refactored a large legacy monolith; built integration tools and worked with CI/CD, Kubernetes and observability stack.

VK

Jun 2023–Aug 2023

Application Security Engineer Intern

- Built an automated DAST pipeline for RuStore using OWASP ZAP API, Python, Flask and CI/CD.
- Tested hundreds of Android applications, performed manual checks with Burp Suite/ZAP/custom tooling and contributed to an internal MobSF fork.

Other Experience

Social Minting — Developer, MusAI startup: Stable Diffusion integrations via Replicate, Appwrite-based prototyping, dataset curation.

ITMO University — Software Engineer Intern: PostgreSQL migration, Celery/Centrifugo integration, Dockerization and backend refactoring.

Education

ITMO University — M.Sc. Software Engineering, 2024–2026

ITMO University — B.Sc. Information Security, 2020–2024
